Attachments: Harvey Air monitoring Q&A_v11.30.2018.docx; 2017-11-14 Sam Coleman Testimony at US House Committee on Energy and Commerce - Subcommittee on Environment.pdf

Jonathan – Monica left you a voicemail yesterday with questions about specifics of the request. There has not been any new bullets or talking points created since last fall, dealing with the Harvey response. I am attaching two documents I believe will best supply talking points for the Association of Air Pollution Control Agencies' Spring Meeting in Baton Rouge on March 25. The first is excerpts from a response to questions from the OIG and the other is the Congressional Testimony by Sam Coleman. Please let me know if you need additional info.

Jonathan,

I am forwarding this request to Monica to see if we have any existing talking points regarding our hurricane response. I am also including Claudia Hosch because her group has done a lot of recovery activities that is more current.

Thanks,
Ronnie

Subject: RA Talking Points - Hurricane Harvey

Hi Ronnie!

Hope you're doing well. The RA is speaking at the Association of Air Pollution Control Agencies' Spring Meeting in Baton Rouge on March 25. She'll be talking in the Risk/Environmental Communication session about Region 6's Hurricane Harvey work. Do you or SF have final talking points on our Hurricane Harvey Response?

I know we have a lot of information on the web, particularly this site:
https://response.epa.gov/site/site_profile.aspx?site_id=12353

But the site hasn't really been updated since October 6.

So I wanted to check with yall to see if there were any updated finalized Hurricane Harvey bullets for the RA to use.

Let me know what you think when you get a chance, thanks!
